

# FOSSIL

EST.  USA

Winter 2014

## FOSSIL WATCH

2014

## HOLIDAY

The holidays are on the horizon, and Fossil is continuing its journey on the open road. As we spend our anniversary year exploring the American landscape, our wanderlust takes us in festive new directions. Whether home for the season or off on a winter getaway, we've curated a stellar selection of gifts sure to make the season bright. Classic styles in an essential neutral palette, vibrant stocking stuffers or gifts that are truly out of this world – they're all packable presents sure to assure your destination will be a celebration!

## OUT-OF-THIS-WORLD GIFTS

Reach for the stars with gifts that are both stellar and stylish.

Celestial shades abound: pinks, reds and blues, plus sparkling accents on bag and bracelet alike. Quirky rocket and robot prints recall the mid-century love of space exploration, and dapper watches and smalls for him take the stocking stuffer to another dimension.

## HOLIDAY LIGHTS

We light up the day and night this season with more shimmer, shine and celebration than ever before. Glittering mesh bracelets, statement-making necklaces and timepieces adorned with a pavé dial will have every stylish lady on your list hoping to unwrap a spectrum of modern metallics.

## TRAVEL IN NEUTRALS

This holiday, we hit the highway with suitcases full of neutral necessities. Fresh shades like raisin, mushroom, taupe, heritage blue and beige assure our bags and accessories are must-haves for her, with cool colorblocking and patchwork piecing giving her greatest gifts an eye catching edge.

A retro pilot look inspired by military fatigues and cockpit instruments make his bags and watches best-bet presents with both form and function.

## LADIES' BUSINESS DRIVER

### CECILE

The one to watch: everyone's leading lady showcases a sophisticated selection of go-for-bold and pretty petite dials in vibrant hues, sparkling accents, and a faceted top ring.

## MEN'S BUSINESS DRIVER

### NATE

There's a reason why we think Nate is so great; with an array of sizes, bands and movements to choose from, this is a watch designed to fit his always-changing life and style.
